More Info

Version 9.3.0

Released on 07:23:28, 1/6/2016
Last updated 02:28:48, 24/8/2019
Publisher VSCoDe Icons Team
Unique Identifier vscode-icons-team.vscode-icons
Report [Report Abuse](#)

Installation

To install the extension just execute the following command:

```
ext install vscode-icons
```

Some people have reported that they cannot find the extension when they insert the installation command.

If you find yourself in the same position, try:

```
ext install icons  
# or  
ext install "vscode-icons"
```

Security

vscode-icons utilizes [NSRI](#) for its subresources integrity check and protection against code injection.

Usage

Once installed and after reloading vscode, you will be presented with a message to Activate the icons.

In case this doesn't happen, navigate to:

- Linux & Windows => **File** > **Preferences** > **File Icon Theme** > **VSCode Icons**.
- MacOS => **Code** > **Preferences** > **File Icon Theme** > **VSCode Icons**.

Features

vscode-icons is being shipped with a lot of features, like:

- [Icons Customization](#)
- [Project Auto-Detection](#)
- [Custom Configuration](#)

Globalization

vscode-icons uses [Crowdin](#) to provide translations for vscode supported languages.

We are looking for translators and proofreaders for all vscode supported languages.

If you'd like to contribute, checkout the [translation section](#).

Contributing

If you like to get involved with the source code, checkout the [build section](#).

For those using [Docker](#) checkout the [docker section](#).

On the other hand, if you want to show the world your artistic side, checkout the [contributing section](#).

In any case, please follow our [contribution guidelines](#).

Documentation

In our [wiki](#) you can find info, like:

- [Extension's History](#)
- [Supported file icons.](#)
- [Supported folder icons.](#)

and more.

Credits

Kudos to all [contributors](#) that made this extension what it is.

License

The source code is licensed under the [MIT](#) license.

The icons are licensed under the [Creative Commons - ShareAlike \(CC BY-SA\)](#) license.

Branded icons are licensed under their copyright license.

Versioning

vscode-icons follows [Semantic Versioning 2.0.0](#).

Change Log

You can checkout all our changes in our [change log](#).

Acknowledgements

We like to express our "Special Thanks" to:

- The [Wallaby.js](#) team for creating an **awesome** development tool and for their generosity in providing us with a license.

Related extensions

- [vscode-icons for GitHub](#) by [@dderevjanik](#) will allow you to see all GitHub's files with `vscode-icons` icons.
- [vscode-icons-js](#) by [@dderevjanik](#) get file/folder specific icon from `vscode-icons` icons.

Enjoy!
